

MY TURN TO TALK FOR PARENTS

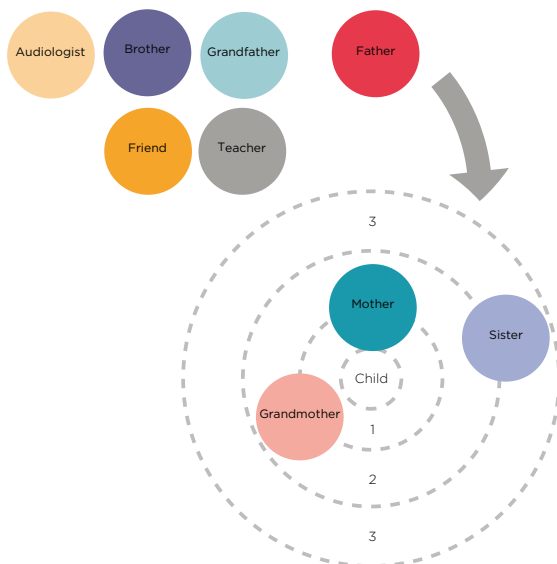

MY TURN TO TALK FOR PARENTS

My Turn to Talk is designed to assist you and your child in the fitting of your child's cochlear implant. The tool helps you identify who your child needs help to communicate with in daily life and the most important topics you wish to voice in the next appointment with your child's hearing care professional.

STEP 1

Please drag and drop the people with whom your child communicates into the rings.

Your child is at the center

List people who are very important in your child's life and with whom they communicate very frequently

List people who are important to your child but with whom they communicate a little less frequently

People who are less important and less frequently present in your child's life

STEP 2

Please answer the four questions by completing the sentences.

I'm happy about...

Describe what you are happy about with regard to your child's hearing situation

I hope...

Describe your hopes for your child's future

I want to talk about...

Describe what you want to talk about during the appointment with your child's hearing care professional

I'm concerned about...

Describe what you are concerned about with your child's hearing loss and communication
